

PRODUCT LINECARD

Servo & Electronic Sales Ltd. is your **family-owned**, franchised, and **value-added distributor** of high-performance circular and rectangular connectors, and accessories.

Established in **1953**, we combine our long-standing heritage and extensive industry knowledge, with our in-house expertise to provide **24/48/72 HR quick-build** options, ensuring **rapid, fully traceable delivery**.

OUR FRANCHISES & PARTNERS:

Eaton Souriau Interconnection Solutions

Eaton Souriau is a leading specialist in interconnection solutions for harsh environments, serving the aviation, military, and industrial sectors. Their products include a comprehensive range of Mil-Spec (QPL Qualified) and EN qualified connectors and accessories.

As an Eaton Authorised Distributor, Servo & Electronic Sales Ltd. offers a 48 or 72-hour assembly service for MIL-Spec D38999 Series I and Series III connectors, providing fast and reliable access to these critical components.

D38999 SERIES III

D38999 /20 /24 /26
8D0 / 8D7 / 8D5

Available in:
Olive Drab Cadmium
Composite Olive Drab
Black Zinc Nickel
Composite Nickel
Electroless Nickel

D38999 SERIES III

D38999 /20 /24 /26
8D0 / 8D7 / 8D5
EN3645K

Available in:
Stainless Steel Passivated
Stainless Steel Nickel

D38999 SERIES I

MS27 (Series I)
8LT

Available in:
Olive Drab Cadmium
Black Zinc Nickel
Nickel

8D with PCB Contacts

8D0C, 8D7C, 8D5C
fitted with Short PC Tail Contacts
8D0L, 8D7L, 8D5L,
fitted with Long PC Tail Contacts
8D0S, 8D7S, 8D5S,
fitted with Specific PC Tail Contacts

D38999 SERIES III:

JVS Bronze
Gray-Tin Zinc
CECC
8DS Spacegrade

TRIM TRIO:

UT0 and UT0X

PFLITSCH Passion for the best solution

Pflitsch is a leading manufacturer of high-quality cable glands and cable management solutions. Their products are designed to provide a reliable seal and secure strain relief in a wide range of industrial applications. The Blueglobe and UNI Dicht series are at the core of their offerings, both of which have a proven track record for performance and durability, achieved through high-grade sealing inserts. Pflitsch cable glands meet rigorous international standards, including VDE, UL, CSA, and global EMC and ATEX standards, making them a trusted choice for demanding environments.
