

Commtes S.r.l.

SERIE 3PT

3PT Series

PROFILO AZIENDALE COMPANY PROFILE

Commtes, nata nel 1997, è una Società interamente a capitale italiano attiva nel settore della connessione elettrica.

Per anni partner operativo di una azienda leader nel settore, per la quale ha prodotto cablaggi di ogni tipo, ha in seguito deciso di entrare sul mercato come produttore di connettori.

L'esperienza accumulata è principalmente visibile nelle soluzioni tecnico/economiche adottate per ridurre i tempi di esecuzione del cablaggio.

La Società, attenta da sempre alla preservazione dell'ambiente, evitando l'utilizzo di sostanze nocive e inquinanti nelle fasi produttive, è dotata ora di un impianto fotovoltaico che copre interamente il suo fabbisogno energetico, contribuendo così alla riduzione di emissioni di CO2 in atmosfera.

Commtes is an entirely Italian Company born in 2001 operating in the industry of electrical connection.

For many years has been a working partner of a leading company in the connection field manufacturing for them any type of cable harnessing and has decided then to enter into the market as manufacturer of connectors.

The experience achieved is mostly evident in the technical/economical solutions adopted to reduce the execution time of the cable harnessing.

The Company has always paid attention to the environment preservation, avoiding the usage of toxic and polluting substances during the production phases. 3CV is now equipped with a photovoltaic system that covers entirely its energy needs contributing in this way to the reduction of CO2 in the atmosphere.

DESCRIZIONE GENERALE

GENERAL DESCRIPTION

La serie 3PT è realizzata in accordo con la norma MIL-C-26482 serie 1.

Essa risponde ai requisiti della stessa per quel che riguarda materiali, prestazioni e accoppiabilità con prodotti di altri costruttori.

Alla serie 3PT sono stati aggiunti accessori che ne aumentano la possibilità d'impiego.

Sono nate così le versioni con contatti a crimpare, da circuito stampato, diversi trattamenti superficiali.

3PT series is manufactured in accordance with MIL-C-26482 series 1.

It's in conformity with the norm as far as material, performances and intermateability with the other manufacturers is concerned.

3PT series includes accessories that widen the range of usage of the connectors.

According to this, versions with crimp contacts, with PCB contacts, with different surface plating are available.

CARATTERISTICHE TECNICHE

TECHNICAL CHARACTERISTICS

CARATTERISTICHE E SPECIFICHE

PRODUCT FEATURES AND SPECIFICATIONS

Caratteristiche Product Features	Descrizione Description
Applicazioni Applications	Apparecchiature elettroniche industriali, veicoli, sensori, motori brushless, telecomunicazioni. Factory equipment, vehicles, sensors, brushless motors, telecommunication.
Sistema Accoppiamento Mating System	Accoppiamento a baionetta con tre punti d'innesto. Three pin bayonet mating system.
Parti Metalliche Shell Construction	Lega di alluminio, acciaio inox, lega di rame. Aluminum, stainless steel, copper alloy.
Trattamento Superficiale Shell Surface Coatings	Nichel brillante (RoHS), Nichel chimico (RoHS), Cadmio, Zinco-Cobalto. Bright Nickel (RoHS), electroless Nickel (RoHS), Cadmium, Zinc-Cobalt.
Temperatura Di Lavoro Temperature Tolerance	I connettori sono testati tra -55°C to 125°C (in relazione al trattamento superficiale). Connectors are tested -55°C to 125°C (in relation to shell surface coatings).
Contatti Contacts	Crimpare, saldare e PCB. General duty crimp, solder contacts and PCB.
Trattamento Contatti Contact Plating	Oro su nichel (alternative su richiesta del cliente). Gold plating (other solutions upon a customer request).
Dimensione Conduttore Wire Gage	Contatti supportano cavi size AWG16 - AWG20. Contacts support wire sizes AWG16- AWG20.
Materiale Inserto Insert Material	Gomma sintetica (neoprene) ad elevato isolamento. Resilient high-insulation synthetic rubber (neoprene).
EMI Schermatura EMI Shielding	Sono disponibili connettori e accessori di schermatura EMI per tutte le configurazioni. Shield termination backshell accessories are available for all plug configurations.
Polarizzazione Polarization	5 chiavi di polarizzazione. 5 keyway polarization
Accoppiabilità Mating	Accoppiabilità con tutti i produttori. Mating with all contractors.

ISOLAMENTO SERVICE RATING

	Tensione di Lavoro CA Operating Voltage AC	Tensione di Lavoro CC Operating Voltage DC	Tensione di Prova CA Test Voltage AC

CLASSE DI IMPIEGO CONNECTOR CLASSES

	A: Per impiego generale, con uscite cavo dritto ed a 90°, utilizzabile con serracavo MS3057 (da ordinare a parte). For general duty applications, with cable exit straight and 90°, suitable for use with MS3057 cable clamps (ordered separately).
	
	A...PG: Connettore con raccordo per serracavi PG plastici o metallici conformi a DIN40430. Connector with straight PG threaded backshell for attachment of PG cable glands in compliance with DIN 40430.
	A...QA: Connettore con serracavo di rapido montaggio. Per maggior tenuta ambientale può essere fornito con apposite guarnizioni (E..QA). Connector with backshell of quick assembly. To increase environmental protection is provided with dedicated sealing gaskets (E..QA).
	A...QAS: Connettore con serracavo di facile montaggio dotato di sistema per riporto calza schermo. Per maggior tenuta ambientale può essere fornito con apposite guarnizioni (E..QAS). Quick assembly suitable for shielded cables. To increase environmental protection is provided with dedicated sealing gaskets (E..QAS).
	Adatta per l'impiego con conduttori singoli, è provvista di uno zoccolo in gomma che isola singolarmente i contatti e conduttori sul punto di saldatura. Suitable for use with single wires. Environmental sealing provided through insert seal and grommet seal to insulate the contacts and wires on a welding point.
	F: Equivalente alla classe E, completata con un serracavo di ingombri ridotti ed una bussola di gomma che protegge il cavo. Same as class E, but with reduced cable clamp and rubber sleeve for cable protection.
	G: Adatto per l'impiego con fili singoli o cavi inguainati, utilizzabile con preformati termostringenti e/o per overmolding. Suitable for single wire or sheathed cables, used with preformat shrink and/or overmolding.
	M: Adatto per l'impiego con fili singoli o cavi inguainati schermati, utilizzabile con preformati termostringenti e/o per overmolding. Suitable for single wire or sheathed shielded cables, used with preformat shrink and/or overmolding.
	J: Equivalente alla classe W con l'aggiunta di un serracavo sulla custodia che conferisce una maggiore resistenza meccanica al connettore. Same as class W, but with cable clamp for improved strain relief.
	W: Presenta una custodia lunga che agevola le operazioni di montaggio. Una bussola con anima metallica all'interno della custodia realizza la tenuta all'aggressione ambientale. Non è provvisto di serracavo. Long backshell to ease assembly. Incorporates metal sleeve and gland seal to provide excellent cable sealing and improved environmental protection. No cable clamp provided.
